DEATH OF ELEANOR OLSON

The death occurred on Saturday of Eleanor, darling fourteen-year-old child of Mr. and Mrs. Albert Olson.

Eleanor had been ailing for a long period and death was fully expected. The funeral took place on Tuesday afternoon and was very largely attended. For the occasion the junior rooms of the local school were dismissed and the pupils in a body accompanied by teachers, attended, and paid their respects and sympathy to a dear schoolmate gone beyond.

An impressive service was conducted at the United church by Rev. J. W. Smith, following which the remains were laid to rest in the Blaimore Union cemetery.

The little casket was literally buried in beautiful and costly floral emblems of sympathy, including the following as contributors: Father, Mother and family; Ann, Agnes and Eric; Uncle Jack, Aunt Doris and Sidney; Grandmother, Joe and Ronald; Jean and Sam; Rita and Audrey Duncan; Dolly Evans, Gladys Morgan, Kathleen and Gertrude Scott, Elaine Ennis, Ruth and Hazel Oakes, Mr. and Mrs. F. McKay, (Coleman), Mr. and Mrs. J. McPhail and family, Mr. and Mrs. Jack McDonald and family, Mr. and Mrs. Jack Patterson and family, Mr. and Mrs. D. A. Howe and family, Mr. and Mrs. T. Hills, Mr. and Mrs. Joe Mirson, Mr. and Mrs. G. Beltrami and family, Mr. and Mrs. A. Morency and family, Mr. and Mrs. H. Carmichael and Margaret, Mr. and Mrs. George Meffan and Isobel, Mr. and Mrs. W. McVey and family, Mr. and Mrs. M. Hamilton and family, Mr. and Mrs. Harold Pinkney, Mr. and Mrs. William Patterson and family, Mrs. F. M. Pinkney, The McKay family, Grace V. Pupis, Miss Warner and Servanus Green, C.G.V. United Church Sunday School, Blaimore Branch of the Canadian Legion, B.E.S.L.

Mr. and Mrs. Olson desire through The Enterprise to thank their many friends for assistance during Eleanor's illness and various expressions of sympathy extended to them hereinafter. Particularly do they mention the untiring efforts of Dr. Stewart, who did his utmost at all times to help bring about recovery and alleviate the child's suffering, also W. H. Chappell, Principal Macpherson and Teachers of the Blaimore school.

BLAIRMORE WINS CROW

LEAGUE CHAMPIONSHIP

The second and final game to decide which team should represent the "Towns" Next Pass Hockey League in the provincial playoffs to qualify for the Allan cup series resulted in a win for Blaimore over Lethbridge in a real hectic game here on Saturday night. The ice was in pretty fair condition and the game was fast. Doc Barbour, of Bellevue, was official referee and handled the game to the entire satisfaction of all.

In the opening period, Blaimore found the net once, adding two more in the second, while the visitors were held scoreless. In the third, Blaimore were lax and permitted Lethbridge to gain two counters and had it not been for very excellent work on the part of the locals in the last few minutes of the game, the game might have ended in a draw, necessitating overtime to decide.

The opening game at Lethbridge on Saturday night, previous resulted in a score of 1-1, so that the series ended 4-3 in Blaimore's favor.

Blaimore Bearcats, all dolled up in new uniforms, left by today's local to play the Calgary Brooks at Calgary tonight. The boys are quite confident of being able to win not against the Calgary organization and hope to go considerably further. The return game with Calgary will be played in the Blaimore arena on Saturday night and should attract the

PREMIER KING
A new picture of Canada's Prime Minister, who, in his speech on the debate on the speech from the throne in parliament Monday, hinted that an appeal to the people this year in the way of a general election was not impossible.

FURTHER ALIENATION COAL LANDS STOPPED

EDMONTON, Feb. 27.—With a view to regulating the coal industry in Alberta so that the supply and demand will more readily balance one another, the legislature on Wednesday gave its approval to a resolution moved by P. M. Christopher, Labor, Rocky Mountain, that no further coal lands be alienated, as follows:

"Whereas the coal mines in this province, already developed, have a capacity output, not only sufficient to take care of present market absorption, but also to provide for any potential market for some years to come;

"Therefore be it resolved, that in the opinion of this assembly there should be no further alienation of coal lands, when the natural resources are returned to the province, and also that, in the event of any leases at present granted reverting to the Crown, for any reason, that the foregoing reservation shall apply."

There was no record vote taken, the motion having the unanimous approval of all sections of the house.

Mr. Christopher, in speaking to his motion, said that in 1929 coal production from Alberta mines was 7,000,000 tons. There were 248 mines, the capacity output of them being 14,000,000 tons.

CARD OF THANKS.

Mrs. Emily Cizek, of Frank, desires to thank those who were so kind during her recent bereavement, and also wishes to acknowledge the many beautiful floral tributes of sympathy.

Daniel E. Daly, a featherweight fighter of note forty years ago, who fought a 91-round draw with Tommy White, of South Omaha, Nebraska, on December 6, 1890, for \$137, died in obscurity at St. Louis recently. He was sixty-three years old. In those days it was considered more or less of a disgrace if the battle did not end in a knockout victory. Accordingly, when at the end of the 91st round the referee decided that the two gladiators were to weak to continue, he called the fight a draw, and each fighter was fined \$50 because it had not gone to a knockout.

The local lodge of Elks will likely foster the Boy Scouts movement.

biggest gate of the season. The local boys have had a few workouts since Saturday and are in excellent trim to meet Calgary tonight.

'Fresh from the gardens'

The True Spirit

At the first showing at Ottawa of the moving picture record of the great Boy Scout Jamboree, held in England last summer, in which 50,000 boys from all parts of the world participated, His Excellency, the Governor-General, Lord Willingdon, in an introductory speech, spoke to the Boy Scouts and Girl Guides present "very particularly and in all seriousness," saying:

"You, young as you are, must know, we all know, that since the years of the Great War, all the nations of the world have been striving by conferences, by pacts and agreements, and by personal negotiations to get rid of the terror of future warfare. The League of Nations has during the past ten years done a great and noble service to secure this end. But I am inclined to feel myself that this younger League of Nations is the most hopeful organization to achieve what we are striving for."

"Under this association you are all growing up filled with the spirit of goodwill and good fellowship to all others, to do your good turn each day to one another, in whatever country your future work may find you—whatever the race and colour of that other may be. I beg of you all to let that spirit guide you in your future lives, for it is by that spirit, which teaches us to think well and not of our neighbour, that we shall in time attain our goal among the nations of the world."

These words of His Excellency are most timely because, if there is any one thing calculated to nullify the efforts of statesmen in all countries, destroy the unifying work of many organizations, and bring to naught the prayers of millions of people, it is the persistent and poisonous propaganda of a few evil-minded persons who see gain for themselves, or temporary advantage for some cause they espouse, through the division of peoples and nations along racial or religious lines, and the cultivation of feelings of suspicion, ill-will, and antagonism among and between them.

It is probably too much to hope that those individuals who are serving their own selfish ends at the expense of peace and brotherhood, and who are doing so, will cease from their evil ways. They are fully alive to the harm they are doing, but that counts for nothing with them because they are reaping some small and temporary selfish benefit themselves. But there are bright hopes for the future if the boys and girls "today learn the better way, and in the activities of everyday life emulate the life and example of the Great Teacher who went about doing good to all men, who taught men that love is better than hate, who refused to recognize any distinction between men of different races or creeds, but emphasized at all times the common brotherhood of man and Fatherhood of God."

Just as the serpent brought evil and discord into the first Garden of Eden, so do the serpents of today in many disguises seek to keep alive the ill-will, suspicion, and personal enmities engendered in the bygone years of a less civilized era in the world's history. These fermentors of strife at home are the first line of defence maintained by those who desire for gain to keep the nations armed to the teeth, and who foment and precipitate wars.

The League of Nations is striving with every means at its control to allay racial suspicions and ill-will. While engaged with practical problems of disarmament, and other concrete causes of strife, the League is devoting possibly even more attention to educational influences. The efforts made to raise the status of women and children in backward countries, to improve labor conditions everywhere, to put an end to white slavery and the traffic in narcotics, all have as their underlying object the removal of causes of friction, misunderstanding, and ill-will among people, and the development of a spirit of world brotherhood. The Balkans have long been recognized as the danger spot of Europe, and the reason is found in racial and religious suspicions and prejudices. Once these can be allayed, peace in Europe will be largely assured.

Lord Willingdon sees in the Boy Scouts and Girl Guides one of the most hopeful movements for future world peace, while Sir Philip Gibbs has declared that the Junior Red Cross in banding the youth of all nations under the common banner of service for humanity, offers the most hopeful sign of the dawning of a better day. The Y.M.C.A. is engaged in the same work among young men of all races, colors, and creeds. Evil-minded men may stir up strife for a time here and there; they may appear to reap a measure of success; but it is temporary, and when the passion of the moment subsides, and people realize how they have been fooled for an ulterior purpose, it will be found their actual achievements have been nil. Hate may influence people for a time, but love in the long run will conquer. It always has; it always will, for love alone is enduring.

Co-Operative Packing Houses

Plans For Establishment Of Three Plants Are Under Way In Alberta

Co-operative packing houses in Lethbridge, Calgary, and Edmonton are projected by the Alberta Live-stock Pool, and plans for the establishment of a trio of plants are under way. The idea of a centralized co-operative plant at Calgary is said to have been abandoned in favor of the three plants serving the southern, central and northern sections of the province.

Manitoba produced butter, cheese, milk, ice cream and sweet cream to the value of \$14,997,651 last year.

Alberta Creamery Butter

Increase In Production In 1929 Over Previous Year Amounted To Over 11 Per Cent.

The provincial dairy commissioner reports that creamery butter production from 67 creameries in the province of Alberta, during the year 1929, exceeded 16,025,000 pounds, an increase over the previous year of 11.5 per cent. The ten cheese factories produced almost 1,000,000 pounds of cheese, and the total dairy production, including fluid milk, reached about \$20,750,000.

There are 600 varieties of seaweed in Japan.

New Material For Ships

Will Make Vessels Practically Unsinkable, Says German Inventor

While the delegates to the five-power naval disarmament conference in London, are trying to limit or reduce the navies of the world, a German inventor named Franz Piller, demonstrated a new material for ship-building that is alleged to enable warships to carry twice as many guns as they could normally, and to make them practically unsinkable.

Herr Piller displayed the buoyancy of his patented materials with model ships. One of them, which was a yard long and a foot wide, supported a load of 120 pounds, while a wooden model of the same dimensions went to the bottom of the water with a similar load.

The inventor hopes to build a model to show the possibilities for the use of his materials in the carrying of commercial cargoes.

ARE YOU RUN DOWN

AND NERVOUS?

All That Is Needed Is A Tonic To Build Up The Blood

There are thousands of people who daily find life a burden. They are weary, nervous, sleepless, and a general run-down feeling so long that they are almost giving up of again enjoying good health. Rest and a blood-building tonic are all that is required to restore health and vitality. Such a tonic is found in Dr. Williams' Pink Pills.

Interpreters At Geneva

Speeches Have To Be Translated Into English and French

Dr. Caroline MacDonald, of London, Ontario, who has spent many years in Tokyo, in social service and prison reform work, last year accompanied the Japanese labor representative to the International Labor Conference in Geneva, as interpreter. This was no easy task, the Eastern and Western languages differing so radically. During the ten days' preparation in Geneva for the great conference, which lasted three weeks, Dr. MacDonald had to translate all speeches from the Japanese to the English, as English and French were official languages to be used, and following the address of the Japanese representative, she mounted the tribune and gave, in English to the non-Japanese speaking section of the audience.

The interpreter at Geneva are the eighth wonder of the world, says Dr. MacDonald. By an ingenious arrangement of telephones in the hall of meetings, interpretation of the speeches to two or more languages follows one sentence after the actual delivery. Telephones were at each desk, and each member dialled on whatever language they wished to hear.

Having Faith In People
Life Would Be Miserable If We Distrusted Everyone
Although faith in people gets a severe shaking at times, it is never destroyed. If it were, it would be a miserable thing to try and carry on business at all.

Imagine having to regard as a crook every man with whom you have dealings until he has proven himself to be reliable. You wouldn't want to have any person visit you in your home under that sort of an atmosphere; you wouldn't want to place an order for merchandise over the telephone; you wouldn't want to go to a lodge meeting or become involved in any other organization.

The great overwhelming majority of people are honorable; they will deal fairly with you; very many of them will go out of their way to try and help you along. If it were not so existence would be a miserable thing indeed.

One of the most effective vermin-fighters on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Chinese Chickens Fatter
Many restaurants in New York who buy chickens in great quantities are having them sent over from China. The breast of the China chicken is much larger than the breast of the American one. It seems in the almond-eyed country they feed them better than they do here and consequently when they are more meat on the bird. They are being shipped to New York by the carloads.

For Catarrh—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally. Sufferers from catarrh will find that the Oil when used according to directions, will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Colonel, Inspecting barracks: "Supposing the barracks were to catch fire what would you do?"
Bugler: "Sound me bugle, sir!"
Colonel: "And what call would you give?"
Bugler: "Cease fire, sir."

Minard's 50 Year Record Of Success.
Manitoba Poultry Pool
Thirteen million dozen eggs were marketed in 1929 by the central selling agency of the Manitoba poultry pool, according to a statement at a meeting in Winnipeg. Membership in the pool is 14,000.

Russia Is Purchasing Cattle In Uruguay

Soviet Are Anxious To Repopulate Greatly Diminished Herds

Soviet Russia is looking to Uruguay to repopulate her heavily diminished cattle breeding industry. She has contracted with a Russian agrarian, long a resident at Montevideo, to tour the Soviet Republic lecturing on the cattle industry as practiced in Uruguay.

At the same time the Soviet has purchased 200 Uruguayan Hereford bulls for reproduction purposes and indicates she may buy as many as 100,000. For animals from two to three years old the Soviet is paying an average of \$180.

While Argentina's vast cattle industry is based on the importation of British thoroughbred short horns, Uruguay's cattle herds were fathered by American Herefords, which were found better suited to resist ticks and other Uruguayan cattle diseases, as well as this particular climate. Soviet Russia is therefore using grandsons and great-grandsons of animals which first saw the light of day on American prairies.

Life Saved By Hymn

British Soldier Suspected Of Being a Spy, Had Narrow Escape

How a British soldier escaped death as a suspected spy at the hands of the French by singing a hymn, was related to the Chapel-en-le-Frith (Derbyshire) Board of Guardians.

The man Joseph G. Davidson, who had sought relief during a recent indisposition, served with the Expeditionary Force in France during the war. He was taken prisoner, and after spending 2½ years at various camps in Germany escaped into the French lines. Here inquiries were made about Davidson, and information was received from the British G. H. Q. that the man had been killed in action.

The French promptly ordered him to be shot as a spy, but a few hours before the firing party were ordered out, a wounded British soldier asked Davidson if he could sing. He sang "Abide With Me," and this in spite of further inquiries, and eventually released Davidson.

A Dog's Paradise
Not a single flea exists in the South African town of Prieska. Scientists working on a plague prevention survey of Africa, conducted wide researches for the elusive insect but at Prieska none were found. It is on the Karoo prairie. Prieska is now boasting itself as the "plague-proof" town, and dogs of all nations look upon it as paradise.

Whether we pronounce radio—radio or raydio, or work work or werk, there will always be plenty of ether and either.

Odd Use For Eggs
You might not know it, but the same eggs you use for cooking are used for tanning gloves, and this industry is the cause of importing more than 800,000 eggs a year into England. Only the yolk of the egg is used in the tanning process.

There are, at present, only two places in Europe where the accordion is not despised—Scotland and Belgium, the latter country possessing 40,000 accordion players.

Don't Let Foods Stale
Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

An Unusual Picture

Sunset On Moon Taken With Motion Picture Camera

Motion pictures showing sunset on the moon was one of the features of the annual exhibit of the Carnegie Institution, of Washington. The film was made at the Mt. Wilson Observatory, in California, with a motion picture camera attached to the great 100-inch reflecting telescope. Like the earth, the moon rotates, thus causing the sun to rise, cross the sky and set, but as the moon takes twenty-seven and one-third days, instead of twenty-four hours to rotate, lunar sunrise and sunset are more leisurely than the earthly variety. Because there is no atmosphere on the moon, there is no twilight, and the sunset represents a sharp change from brilliant sunlight to darkness, instead of the gradual diminution of light on the earth.

The film shows the shadows of the lunar mountains crawling across the surface. The actual times occupied in the taking of the film was five and one-half hours, but it is speeded up in projection, and runs through in a minute and a half.

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians for 50 years since its invention. See spots of its name.

tasteful alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficacy of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia. Beware of cheap imitations for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Edmonton Stock Yards
During the year 1929, a total of 3,789 cars of livestock were received by the Edmonton Stock Yards Limited, as compared with 3,860 the year before. In the year 1929 there were fewer hogs, sheep and horses shipped but more cattle and calves.

BRILLIANT RITES AT OPENING OF FEDERAL HOUSE

Ottawa.—The fourth session of the 16th Parliament of Canada was opened with the annual rites and ceremonies attendant upon this feature of the political life of the country. The Speech from the Throne forecast little in the way of expected legislation and was in no sense a controversial document.

There is nothing in the speech likely to occasion a prolonged debate on the address in reply, but the gossip around the corridors indicates that this debate may extend over a week or two. In recent years the debate has been disposed of in two days at most, but this year many private members have prepared speeches and will participate in the discussion, if the party whips do not exercise a restraining influence.

The speech itself refers to the prosperity of the country, the advancement of foreign trade by the appointment of new trade commissioners and the opening up of new steamship services. The progress being made on the great public works of the Dominion is alluded to, the Hudson Bay Railway is now nearly complete; the Welland canal soon will be open to shipping, and the new lower lake terminal at Prescott rapidly is taking form.

The speech was drawn carefully to leave the government uncommitted on the radio broadcasting report. This report it is stated, will be submitted to parliament. The report of the commission on the salaries of mechanical workers also will be tabled.

In the way of legislation, the speech forecasts the bills to ratify the national resources agreement with Manitoba, Alberta and British Columbia, the revised Canada Grain Act, a bill dealing with the National Railways and other bills amending the Elections Act, the Bankruptcy Act, the Companies Act and the criminal code.

Record Entry For

Manitoba Winter Fair

Officials Are Looking For Additional Stabling Accommodations

Brandon, Man.—Another record making entry has been made at the Manitoba Winter Fair to look around for additional stabling accommodations. A year ago every available inch of space was used in the Arena buildings to take care of the livestock entries, and some departures were cramped even after some of the stock had been taken care of in outside barns.

It is expected that the Hon. T. A. Cross will open the show. If the new Minister of Railways and Commerce for Brandon, can leave Ottawa even for a short time in March, he will probably attend the opening of the exhibition.

Explorer Sails For Home

Byrd Has Spent More Than Year In Antarctic

New York.—The New York Times, the St. Louis Post-Dispatch and newspapers affiliated with them in publishing reports from Rear Admiral Richard E. Byrd's Antarctic expedition, announce that Admiral Byrd and the members of his expedition, after spending more than a year on the ice barrier of Ross Sea, has broken camp and sailed homeward from the Bay of Whales, aboard the barque the "City of New York."

They are bringing back essential papers and gear, but their aeroplanes and much other material it has been necessary to leave behind.

Enters In Dog Derby

Indian Musher Will Be Competitor In Annual Event At The Pas

The Pas, Man.—Donald Flett, one of the best known Indian dog mushers in the north, will be an entrant in this year's Pas dog derby, starting March 4, according to word received from the Spitkane area where Flett resides. Flett did not enter the 200-mile race last year as he did not have enough dogs in training, but he was a competitor in the eight races. The Indian racer is expected to reach The Pas a week before the big event in order to put his team through its final stages of training.

Chair Of Business Administration

A chair of business administration in the University of Manitoba is favored by about 1,000 members of the university alumni and Winnipeg Board of Trade members.

W. N. U. 1826

Drive Against Orientals

White Canada Association Asks B.C. Government For Campaign Fund

Victoria, B.C.—The British Columbia Government was asked to ascertain the practicability of the removal from the country of all Asiatics and expropriation of all property owned by them upon payment of compensation.

In arguments presented before the agricultural committee of the legislature, it was stated that the elimination of the Oriental from British Columbia was the most pressing matter before the people today, and that the situation was grounds for a grant of \$5,000 to the White Canada Association for a campaign fund to carry on an agitation for revision of British treaties which now bar restrictive local legislation.

The matter was brought before the committee of the advisory board of the Farmers' Institutes, and was spoken to at length by A. B. Smith, of Cranbrook, secretary of the advisory board; C. E. Hope, of the White Canada Association; and J. P. Hampton, B.C. grand seigneur of the White Canada Association.

It was declared that the whites could compete with the Chinese but that the Japanese were another matter. Severage of competition caused the whites to drop out of an industry, it was declared by Mr. Smith. He said, however, that there was no lessening of output, but an actual increase as Orientals took up such production.

"To me, it is a profitable business," he said. "They have less overhead, work longer hours, and are willing to work the whole family."

Mr. Hope asked the province to persist in re-enacting disallowed legislation until some action was attained. He advised placing pressure on Ottawa towards attaining a redrafting of treaty arrangements. Such redrafts would be acceptable to Japan, he believed, if they were on a basis of exact mutuality.

Will Request Change

In Banking System

Western Members Of Federal House Have New Plan

Ottawa, Ont.—Western members of parliament, gathered in the capital for the opening of the session, are keen to get on with the business, and in many cases will endeavour to get parliamentary approval of important reforms.

Perhaps the most coherent objective among western members is to bring about a change in the banking system, whereby a federal bank of discount would be set up and the present discount activities of the banks would be curtailed, if not discontinued altogether.

The Alberta members are particularly desirous of getting action along these lines. It is held that the gold credit situation and the general credit situation of the country, the inefficiency of the present banking system and the need of a change.

Will Use King's Cutter

Famous Racer Britannia To Test Speed Of Lipton's Challenger

Portsmouth, Eng.—King George's famous racing cutter "Britannia," will be specially commissioned to sail against Sir Thomas Lipton's new challenger for the America's Cup, the Shamrock V, in the Solent. The date for the trials has not been set but probably will be arranged so His Majesty may attend. The Britannia is one of the fastest boats in the English waters.

Registered Mail Stolen

London, England.—A hundred registered letters, mostly containing money orders and bills in dollar currency, were stolen from a postal bag which left Montreal on February 9, aboard the "Doric," and was sent by train from Queenstown to Belfast via Dublin. The theft was discovered at Belfast. The seals of the letters were found to be broken, but the bag had been re-tied.

Granted Incorporation

Winnipeg.—The Scandinavian Colonization Association, an organization which will aid and assist in bringing immigrants to Canada from Norway, Denmark, and Sweden, has been formed, under the presidency of H. P. A. Hermanson, Winnipeg. Headquarters of the association, recently granted incorporation by the Dominion Government, will be in Winnipeg.

Bare Women From Law

Quebec, Que.—The bill designed to amend the statutes so that women might be admitted to the practice of law in the province of Quebec, was defeated in the legislative assembly by a vote of 37 to 29.

Wins New Honors

Coast Astronomer Awarded Medal For Distinguished Work

Victoria.—Dr. J. Plaskett, director of the Dominion astro-physical observatory, has received word that he has been awarded the Rumford medal, given by the American academy of arts and science for distinguished work in astronomy.

The last recipient of this honor was Professor Arthur Compton, of Princeton, winner this year of the Nobel prize.

The Rumford medal will be presented to Dr. Plaskett at Boston, on April 9, when he is en route to England to address the Royal Astronomical Society and receive his gold medal, recently awarded him for his remarkable studies in stellar movements and the scientific conclusions which have been made possible by his labors.

Would Give Power To States

Association Is Against Prohibition Amendment, Demands Its Repeal

Washington, D.C.—Outright repeal of the Eighteenth Amendment and its transfer to the states of the power to regulate intoxicating liquors was demanded by witnesses before the house judiciary committee which after a recess of several days has returned to the hearing of testimony for a change in the dry laws.

William H. Stayton, chairman of the board of directors of the Association Against the Prohibition Amendment, asserted people throughout the United States had lost respect for the government because of the prohibition law, and because it had lost its efficiency.

WHEAT POOL TO BE ESTABLISHED IN AUSTRALIA

Canberra, Aus.—A great wheat pool will be established in Australia. There is some discussion as to whether it will be a Government-controlled body, or under the direction of the wheat growers themselves. But there is little doubt that a Commonwealth wheat marketing body will be in operation in a comparatively short time.

A great conference between the Commonwealth and State governments, and the Wheat Growers' Association, decided on the Pool. The Federal Government wants it to be under government control, with a state board in each state operating under a commonwealth board at Canberra, on which the state boards would be represented. The wheat growers want it to be under control of the farmers.

The real difference, however, centers around the government guarantee of a stabilized price for the farmer. The government offered to guarantee 90 cents a bushel for wheat delivered at country sidings, the equivalent of \$1.08 a bushel f.o.b., for one year only. The wheat growers asked that this guarantee be extended to cover three years.

Hon. Parker Macleod, Federal Minister of Markets, said the government could not agree to extending this guarantee until it was seen the scheme for an Australia-wide wheat pool was in operation. But when the pool is established and is working satisfactorily, the government will favorably consider the suggestion of extending the guarantee of price, the minister promised.

JEWEL VALQUIETT AND ROBERT CLIFFE WITH THEIR PET HUSKY

Here is shown Jewel Valquiett and Robert Cliffe, with their pet husky dog, as they appeared at the first international winter carnival at Ottawa.

WINS GOLD MEDAL

John Johnson, chief superintendent engineer of Canadian Pacific Steamships whose paper "The Propulsion of ships by modern steam machinery" has been awarded the gold medal for 1929 by the Council of the Institution of Naval Architects.

Discuss Peace River Outlet

Private Company Asks Alberta Government For Permission To Build Line

Edmonton.—If the Canadian National or Canadian Pacific Railway companies jointly or individually, will undertake to build a new northern line giving the much desired Peace River outlet to the coast, information to that effect will be appreciated by the legislature; otherwise there is a fairly good chance of a charter being granted to the Beaver Lodge Nova River Railway Company, which is asking permission to construct a line through the Gray Pass, it was revealed here. The bill to incorporate the company was before the railways committee of the house, and given a thorough discussion, the outcome being that C.N.R. and C.P.R. officials are to be asked to attend at a future sitting of the committee and state what objections, if any, and what intentions, if any, or both of the transcontinental roads may have, in the matter.

Rumanian Princess May Break Engagement To German Count
Bucharest.—Postponement of the wedding of Princess Ileana, of Rumania, and Count Alexander von Hohenberg, is the only official answer in Rumania to reports that their engagement, which the princess herself announced some weeks ago, had been broken off definitely.
Premier Maniu said the government was investigating the antecedents of Count von Hohenberg, in Germany, and was seeking further information about him. If the Rumanian Government found anything reflecting dishonor upon the count, it would intervene and advise against the maintenance of the engagement.

Royal Wedding Postponed

Rumanian Princess May Break Engagement To German Count

Bucharest.—Postponement of the wedding of Princess Ileana, of Rumania, and Count Alexander von Hohenberg, is the only official answer in Rumania to reports that their engagement, which the princess herself announced some weeks ago, had been broken off definitely.

Premier Maniu said the government was investigating the antecedents of Count von Hohenberg, in Germany, and was seeking further information about him. If the Rumanian Government found anything reflecting dishonor upon the count, it would intervene and advise against the maintenance of the engagement.

Worried By Dogs

The Pas.—Mongrel huskies, roaming the streets of The Pas during the winter season, are alarming citizens of the northern town. Their latest attack involved the mauling of William Hinchuk, 10, in front of St. Anthony's hospital. A passing priest saved the lad from serious injury. Three other cases of canine onslaught have been reported by hospital authorities.

Applying For Charter

High Speed Road Bill Is Again Before Alberta House

Edmonton, Alberta.—Supported by an influential petition containing the names of over 5,000 residents of southern and central Alberta, the bill for a charter incorporating Alberta Trackways, Limited, came before the Alberta legislature this season for the third time, sponsored this year by Donald Cameron, U.F.A., Innisfail.

The bill provides for the incorporation of a company which undertakes to lay concrete highways of not less than 18 feet in width, from Edmonton to Calgary, from Calgary to Banff, and from Calgary to Macleod, Leithridge and Coats.

Construction of the trackways is to be commenced within two years, and completed within five years of the securing of the charter.

The idea back of the plan is for a system of safe, speedy, all-weather highways, constructed of concrete between the points indicated; which would enable auto drivers wishing to make the best possible time between these points, to travel on the trackways instead of on the slower and more tortuous provincial highways.

A small toll would be charged each car for the privilege of driving over such trackway and, according to the promoters, such toll would more than be offset the saving in gasoline, wear and tear on car and tires, saving of time, etc.

The promoters are D. F. Whitney and W. D. Milner, of Calgary, and J. W. McDonald, of Macleod, and ample financial backing is available in case the legislature this year sees fit to grant the application, the promoters state.

Will Cost Half Million

Manitoba To Extend Highway To Ontario Border

Winnipeg.—Manitoba's road link, which will meet the trans-Canada highway expansion at the Ontario border, will cost the province \$528,197, Hon. W. R. Clubb, Minister of Public Works, told the legislature. The road, construction of which will start in the spring, starts from the Whitemouth River, near the village of Whitemouth, and will follow the general direction of the Canadian Pacific Railway tracks to the Ontario border.

Mistakes Poison For Water

Young Chemist Dies Few Minutes After Drinking Fluid

Vancouver.—Hugh Chester Bell, youthful chemist, mistook a glass of poison for water in his office, here, drank it down and died a few minutes later. An emetic administered by one of Bell's co-workers whom the stricken man called to his aid, failed to take effect and he died before a doctor could reach him. The deceased, an Oxford University graduate, had arrived in Vancouver only 18 months ago from England. He is survived by his wife and one child.

CONFERENCE TO MEET IN LONDON SEPTEMBER 30

London, England.—Prime Minister MacDonald told the House of Commons that the next meeting of the Imperial Conference will be held in London this autumn. The date for the opening meeting was fixed for September 30.

Ottawa.—Particular interest attaches to the announcement from London that the Imperial Conference will be held this autumn, in view of election possibilities. It has been rumored on a number of occasions that the Canadian Government would go to the country this fall, but announcement of the conference casts doubt upon such forecasts.

It is understood here that not only will there be an Imperial Conference, but that an Imperial Economic Conference will take place at the same time. The presence of the Prime Minister will be essential in London.

Consequently, if an election is to take place this year, it must be before the opening date of the conference, or after the conference is over. The latter would mean a pretty late election date.

There is no indication at present of what particular subjects Canada will desire to take up at the conference. These will be the subject of much consideration and discussion between now and October. With parliament in session, the Prime Minister will have an opportunity to hear what members from different parts of the Dominion have to say on matters of Empire interest before he departs for London.

MORE INTENSIVE PRODUCTION IS CANADA'S NEED

Regina.—The paramount need for people in every part of the British Empire to adopt a policy of buying home products first, Empire products next and foreign products last, if the Empire is to survive the present period of distress and competition, was portrayed vividly and statistically to the Canadian Club by W. A. Wilson, a former Reginald, who is now Canada's agricultural representative in London, and a member of the Empire Marketing Board.

He referred to the proposals for preferential trade within the Empire and to Lord Beaverbrook's crusade for free trade within the Empire, without taking sides for either proposal, save to point out that Lord Beaverbrook's slogan was not to be taken too literally in Canada as his aim was to get the delegates to the forthcoming economic conference in a frame of mind for action, to work an effective scheme.

Pointing to the great need for intensified production and the opportunity for Canada in the British market, Mr. Wilson pointed out that Great Britain, in 1928, imported 960,000,000 lbs. of bacon, of which only 3.4 per cent. came from Canada; 685,000,000 lbs. of butter, of which 0.0 per cent. came from Canada; 337,000,000 lbs. of poultry, of which only 5 per cent. came from Canada; and 265,000,000 dozen eggs, of which only 2 came from Canada.

Search In North Ended

Body Of Eielson Found In Wreckage Of Plane

Fairbanks, Alaska.—The body of First Captain Ben Eielson was found in the wreckage of his plane, 90 miles southeast of North Cape, Siberia. Pilot Joe Crosson has radioed from the fur-trading ship "Nanuk," at North Cape.

Eielson and his mechanic, Earl Borland, were lost November 9 last, while, flying from Teller, Alaska, to the "Nanuk." Borland's body was found first.

Crosson suggested that Eielson had been killed instantly at Borland. He said the bodies of the two men would be taken to Fairbanks as soon as possible.

The "Nanuk" plane crashed in the fog while Eielson and Borland were on a flight to the "Nanuk," a fur trading ship icebound here. The wreckage was found on January 25 by pilots Joe Crosson and Harold Gilliam, who had conducted numerous scouting trips from the "Nanuk."

The plane was torn asunder by its impact with the earth, the various parts of the craft being scattered over a large area. The motor, near which Eielson's body was found, was hurled 100 feet beyond the fuselage, while one wing was broken off 200 feet from where the main portion of the plane came to rest.

Britain's New Auto Laws

One Provision Is To Increase Penalties For Dangerous Driving

London, England.—Miss 1930, with her modern learnings, will find no difficulty in complying with the order compelling motor cycle pillion passengers to ride astride, which is one of the provisions of the road of the transport bill, on which second reading was moved in the House of Commons by Herbert Morrison, the Minister of Transport.

Other provisions of the bill abolish the speed limit for light motor cars, increase the penalties for dangerous driving, fix 16 years as the minimum age of ordinary automobile drivers and at 21 as the age of those driving public service vehicles; lay down a maximum number of working hours for drivers of heavy vehicles and enforce compulsory third-party insurance.

Increase In Gold Reserve

Ottawa.—Canada's gold reserve is gradually creeping up. The circulation and specie report, released from the Department of Finance recently, as of January 31, shows that the gold held by the Minister of Finance against note circulation and government saving bank deposits is \$65,223,733.32.

Would Improve Park

Prince Albert.—The Saskatchewan Trustee Convention has unanimously urged upon the Government the necessity of making provision for immediate developments in Prince Albert National Park to make it fully available for tourists and visitors this summer. A telegram to this effect has been dispatched to Ottawa.

THE WILD ROSE OF ALBERTA

The wild rose has been selected as the official flower of the province of Alberta. This past week the provincial legislature confirmed the choice by legislative enactment. The selection is a happy one.

In nearly every part of Alberta the late spring and early summer sees the wild rose bloom in profusion. It is a hardy plant and blooms persistently. The single petalled flower, while lacking the vivid coloring and gorgeous scent of the tame rose, is pleasing to the eye, and possesses a sweet, if faint perfume.

The main characteristic of the Alberta wild rose is its hardness and persistence in growth. It possesses a tannin that is remarkable and can withstand the winter cold equally as well as the drouths of a warm summer.—Ex.

SEVEN TIMES AND OUT

Seven is a cabalistic number; it is also a favorite of poets. The seventh child of a seventh child is reputed to have psychic powers. But a Greek professor has discovered seven to be destructive. Writing for a Greek paper that appears in Paris, he produces a mathematical curiosity, which we reproduce from the London Evening Standard:

"The magic figures are 142,857. If they are multiplied by two, the result is 285,714. That is, the same figures and the same sequence. Multiply by three; and the figures (428,571) and the sequences are still undisturbed. Multiplied by four, the result is 571,428. Here again the same figures and the same undisturbed sequence. Multiply by five, and the result is 714,285; by six, 857,142. In this last example the result is even more curious, because the two sets of three figures are exactly transposed.

"When, however, the doubtless weary figures are multiplied by seven, the magic formula breaks down, and the following curious result is achieved 999,999.

"I wonder if any of my wrangler readers can produce a better mathematical curiosity than this."—Ex.

CANADIAN COAL NOT WANTED

A recent despatch from Washington indicated that Pennsylvania coal and transportation companies are waging a vigorous fight against the proposed repeal of the tariff regulation under which a duty could be imposed on coal from any country which placed a duty against United States coal imports.

It is easy to see that Canada is the country in mind. British Columbia coal is being shipped into the Pacific coast states, while Nova Scotia mines are in a position to supply the New England states, which consume about twenty million tons a year.

The American coal barons are in no disposition to permit Canadian mines to cater to any part of the United States market. They want it all and the millions of tons business involved in supplying the fuel demands of Ontario as well. To keep Alberta coal out of the province, they cut prices and improved quality.

When it comes to a matter of trade, Uncle Sam is all for himself. This is a good business example, which the Canadian government should adopt instead of continuing complacently the policy of permitting outsiders to carry off millions of dollars annually in supplying Canada with fuel which she possesses in abundance.—Calgary Herald.

WILL ALBERTA REDUCE AUTO LICENSES BEFORE NEXT ELECTION

Premier Ferguson, of Ontario, has set a bad example in reducing motor license fees. True to promise, license fees in Ontario are down to \$5.00 in 1930.

License fees in Alberta remain at the same point, the gas tax remains the same. In Ontario the gas tax is definitely marked for roads. In Alberta it goes into general revenue.

There is every likelihood of an Alberta election this year, so reduced motor license fees and car-marked gas tax will be good talking points for candidates for office.

Premier Ferguson made a hit with his promise of tax relief in the Ontario election last fall.

Possibly word of various tax reductions in Alberta may be merely awaiting the announcement of election dates. It is usually the occasion for putting the best foot forward amongst all parties.—Ex.

ALBERTA'S MOUTH HEALTH CRUSADE

The important bearing that the condition of the teeth has upon the general health of the individual is to be brought to the attention of the people of his province in a forceful way in a sixty-day campaign beginning on February 17th. In every part of Alberta addresses will be given, stories told, films and lantern slides shown, and illustrated pamphlets distributed, all teaching the great lesson that sickness and suffering and even death may be caused by the neglect of the teeth.

In this work all the philanthropic and service organizations of the community are expected to co-operate. Churches and schools and clubs will play a particularly prominent part. The public will be shown how they may prevent the decay of the teeth by eating the right kind of food, balancing the diet, and brushing the teeth in a regular and systematic way. They will be informed about the ill effects that affect the whole body because of diseased teeth and about the best measures to be taken to deal with such conditions.

Nor will the campaign be confined to educational work. The mouths of all the children in the schools will be inspected in which task every dentist will put in two days of his time without charge.

The campaign is being put on by the Canadian Dental Hygiene Council, a nation-wide organization composed of public spirited persons of all classes, which will work through the Alberta Dental Association, with the active co-operation of the Provincial Departments of Health and Education.

For the purpose of the campaign the province will be divided into twenty-two districts, each with its own chairman and local campaign organization. Every citizen in Alberta is in one of these twenty-two districts and has an opportunity to help.

The growing generation should be healthier than the one that preceded it because of this dental crusade; and a lot of misery on the part of adults due to lack of knowledge and care of the teeth should be obviated.

SUES PUBLISHER FOR LEAVING OUT ADVERTISEMENT

A local advertiser at St. Petersburg, Florida, has started an action against the local newspaper for the failure and refusal of the newspaper to publish for three weeks "approximately a one-inch notice," which is claimed to have damaged the plaintiff's business to the extent of \$25,000.

The failure to publish is described as unlawful, wilful, malicious and designed wickedly to destroy the plaintiff's business. All of which is a remarkable appreciation of the value of space in a newspaper.

Says The Renfrew Mercury: "A one-inch advertisement to run for three weeks, worth \$25,000, or \$8,333 per inch per insertion, is the richest estimate we have seen placed on newspaper commodity in some time of ever."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor
Serve the church that the church may serve you.

Services, Sunday, March 2nd, the Pastor in charge—

11 a.m.—SENIOR SCHOOL, for Young People over 12.

2 p.m.—JUNIOR SCHOOL, for Children under 12.

7.30 p.m.—PUBLIC WORSHIP.

Subject: "The Fifth Commandment—Honor thy father and thy mother."

This is the fifth sermon in the series, "The Ten Commandments in 1930," and the subject is timely, following as it does the Father and Son-Mother and Daughter banquet on Friday of this week. We shall discuss the modern problem of the right relationship of parents and children.

The Father and Son service, which was announced for Sunday, the 2nd, has been postponed until the 9th, owing to a delay in getting the service sheets.

HILLCREST UNITED CHURCH

Pastor: Rev. J. W. Smith, B.D.

Services every Sunday—

11 a.m.—Junior School, for boys and girls under 12 years.

2 p.m.—Senior School, for young people over 12 years.

3 p.m.—Public Worship.

ST. LUKE'S, BLAIRMORE

Service on Sunday evening at 7.

Rev. Mr. Barlow, of Brocket, in charge.

Sunday school at the usual hour.

USING OUR HEADS

A woodpecker pecks

Out a great many specks

Of sawdust when building a hut.

He works like a nigger

To make the hole bigger—

He's sore if his cutter won't cut.

He don't bother with plans

Of cheap artisans,

But one thing can rightly be said:

The whole excavation

Has this explanation—

He builds it by using his head.

GET YOUR CAR LICENSES

The Provincial Police have been instructed to prosecute any person driving a motor vehicle after March the 1st without same having been registered for the current year. These instructions will be strictly carried out.

Any person employed to drive a motor vehicle, or who drives a motor vehicle for hire, is required to take out a chauffeur's license. This will also be strictly enforced.

C.P.R. EXPANSION PROGRAMME FOR 1930

Montreal, Feb. 17.—More than \$50,000,000 will be expended on new equipment, new branch line construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to announcement made by President Beatty. "Firm in the conviction that Canada will continue its steady and unbroken progress during the present year, the directors approved of this impressive programme of improvements and extensions," Mr. Beatty said, when emphasizing that the scope of the programme would include practically every phase of the company's activities.

In order to maintain Canadian Pacific service at its traditionally high standard, orders have been placed for equipment and for the conversion and improvement of existing equipment to a total of \$14,442,730, including new baggage and express cars, parlor cars, sleeping cars, electric rail cars, etc., and service units and conversions for a total of approximately \$5,300,000. All these units will be built in Canadian workshops by Canadian workers.

Improvements and extensions of far reaching importance are planned for the Canadian Pacific, telegraphs, more than three millions to be spent in this world embracing phase of C.P. activities. Canadian Pacific hotels from coast to coast will benefit to the extent of \$3,000,000.

In order to bring transportation facilities to the steadily expanding area of settlement in the North West, the company will continue with the construction of branch lines. In this programme is included the completion of the line from Arrowwood to Blackie in Alberta, and the important link between Kootenay Landing and Proctor in British Columbia.

Belle Baker's simplicity, her portrayal of mother-love and her rendition of songs with a throbbing, "Song of Love," will sway you from laughter to tears and from tears to laughter. See it at the Orpheum Thursday, Friday and Saturday.

"Song hits from 'Song of Love': 'Take everything but you,' 'I'm walking with the moonbeams,' 'White way blues,' 'I'll still go on wanting you,' 'I'm somebody's baby now,' 'The Italian chiropractor,' 'Atlas, is it less now?'—Come and hear these famous songs at the Orpheum Thursday, Friday and Saturday.

Donald (to wife at railway): "What? Ye canna get a porter tea tak our luggage?"

Wife: "Na, na. Ye try, Donald, ye're accented's no' quite see noticeable."

Every girl is looking for a husband both before and after marriage.

Robin Hood FLOUR

For All Your BAKING

at **CALGARY**
MARCH 19-22

Four days of lovely music and color, illustrating the Arts, Crafts and Song of the peoples of the prairie provinces—British, French-Canadian and European, with an American flavor of Cowboy songs.

Singers, Instrumentalists, Folkdancers from racial groups in the picturesque costumes of their country of origin.

Visiting Artists, including Isabelle Burnside, Selma Johansen de Coster (The Swedish Nightingale) and Charles Marchand, French-Canadian Folk singer.

Handicrafts organized by the Canadian Handicrafts Guild (Alberta Branch), Music and Folkdancing organized by the Canadian Pacific Railway.

N.B.—Those wishing to exhibit handicrafts should communicate with Mrs. J. J. Anderson, Secretary Alberta Branch, Canadian Handicrafts Guild, 1c March and Apts., Edmonton, or Palliser Hotel, Calgary, Alta.

"THEY HAD TO SEE PARIS"

Will Rogers enacts the role of Pike Peters, the happy and contented owner of a garage in Clearwater, Oklahoma, until his oil well comes in and he is made rich. His real troubles begin when his wife insists on going abroad.

Father, mother, son and daughter make the trip in grand style and, once in the foreign atmosphere, the ambitious Mrs. Peters is determined to marry her daughter, Opal, to a title.

Mrs. Peters buys her way into society, but encounters no end of trouble in educating Pike to her grand ideas. The limit is reached when Marquis de Coudray attempts to tap Pike for half a million dollars as compensation for marrying Opal. Then the fur flies, and so does the fun, in the feature, "They Had to See Paris," at Cole's theatre, Bellevue, for tonight, Friday and Saturday.

To prove that advertising pays, The Alton Empire tells of a man who advertised in his local paper that he had lost an umbrella, and advised the finder to keep it. The finder did.

PROMINENT CITIZEN

LAID TO REST

The funeral of the late Enrico J. Pozzi took place on Sunday afternoon last and was very largely attended. Following service held at St. Anne's church, the remains were laid to rest in the Catholic cemetery.

Floral tributes were many and beautiful, including the following: gates ajar, The Family; wreaths and sprays—Rinaldo and Carmen; Gullio and Zino; A. Pozzi and family, Frank; E. Pozzi and family, Bellevue; Trustees Blairmore School, Pupils Grade III, Staff of Blairmore School, Mr. and Mrs. G. A. Viass, Mr. and Mrs. L. P. Robert, Mr. and Mrs. R. Green, West Canadian Collieries, Mr. and Mrs. G. Fabro and family, Mr. and Mrs. R. Gray and family, C. Miro, Mr. and Mrs. H. Zak, Mr. and Mrs. R. Rinaldi, Mr. and Mrs. Harold Pinkney, Charles Sartoris, Mr. and Mrs. H. Upham, Mr. and Mrs. J. Mison, Mr. and Mrs. P. Barattelli and sons, Mrs. J. Ponti, J. M. Jaabee (Hillcrest), W. F. Montalbetti (Corbin), Mr. and Joe Rossi, M. Girigelli, Mr. and Mrs. A. Morency and family, Mr. and Mrs. F. M. Thompson, Mr. and Mrs. Barattelli (Corbin), Miss C. Jensen, Punnagalli Brothers, Mr. and Mrs. P. Montalbetti, Mr. and Mrs. J. McPhail and family, Mr. and Mrs. S. Trono and Beatrice, Mr. and Mrs. J. E. Gillis, Mr. and Mrs. M. Sartoris and family, Mr. and Mrs. Tony Rossi, Mr. and Mrs. S. Knappman and family, Mr. and Mrs. G. Steeves, Mr. and Mrs. B. Fabro (Kimberley), Mr. and Mrs. A. J. Kelly, Bellevue Arena Co., Mrs. L. Dutil and family, Mrs. F. M. Pinkney and Roland, Mr. and Mrs. M. Carino, Mr. and Mrs. Maroli (Bellevue).

Mrs. Pozzi and family desired through The Enterprise to thank all for kindnesses and expressions of sympathy shown, particularly those who loaned cars.

We understand that the lumbering and contracting business of Mr. Pozzi will be continued under the style of E. J. Pozzi & Sons, and that Mr. Louis Pozzi will continue as manager.

The division was having maneuvers for the benefit of visitors' day and everything was being let loose at once. A pretty girl was eagerly watching the performance when a rifle volley crashed out. With a surprised scream, she fell back into the arms of a young corporal who was standing just behind her. "Oh, I beg your pardon," she gasped, blushing.

"I was frightened by the rifles," "Quite all right," replied the corporal. Then he added, hopefully: "Let's go over and watch the heavy artillery for a while."

The automotive industry in the United States wound up the year 1929 with a grand total production of 3,258,361 passenger cars, trucks and taxicabs, as compared with 4,558,796 in the previous year, establishing a new high record output for all time. The output of passenger cars for the year amounted to 4,556,029, as against 3,821,136 in 1928. The production of trucks increased from 530,910 to 754,762 in the same period.

Next time a hockey game is to be played in Lethbridge, Blairmore folks will subscribe to a fund intended to finance the way to the game for Lethbridge "should-be" fans. Blairmore juveniles can draw a bigger gate from a town of less than 2000 people than Lethbridge can draw for a senior game from its 12,000. It doesn't look right!

Harvard University has discharged its twenty scrubwomen and substituted men, because the Minimum Wage Commission demanded a wage increase from \$10.50 per week to \$11.10, says the Toronto Globe. Evidently there wasn't any academic course covering the needs of a scrubwoman—Ex.

FOR RENT OR SALE—Four-roomed house with bath, pantry, scullery, good garden and chicken run. Water piped in. Also two-roomed shack, suitable for two bachelors. Apply to W. Harrison, 9th Avenue.

—Feb. 27—

MINERS TO ASK

UNIFORM RULES

LETHBRIDGE, Feb. 21st.—The Mine Workers' Union of Canada will go to the operators on March 1, asking for uniform agreement for the entire district," stated a union official Thursday. This decision, reached at the recent conference in Calgary, has received general approval among the rank and file of the men, it is understood, and the committee will confer with the coal operators on this basis. At the present time independent agreements at the various camps are in force.

The agreements terminate on March 31, and under the terms of the pacts between the men and the operators, negotiations are due to open on March 1. With existing agreements nearing expiration, domestic coal mines are on slack time, with little prospect of much improvement for some months.

However, local mines have had a steady flow during the winter so that colliery workers have no great cause for complaint on that score.

A large number of the business men of the city held a meeting in St. Augustin's hall when steps were taken to organize a Retail Merchants' Protective Association. The working of the association is along the same lines as the Bradstreets company to protect the various merchants from giving credit to persons who are found to have run up "bad debts."

—Lethbridge Herald, 20 years ago.

"Has your son's college education proved of any real value?"

"Yes, indeed. It's entirely cured his mother bragging about him."

A guy from Pincher, who airplane to Blairmore on Saturday for the hockey game, was surprised to see Tony actually "flying" on the ice.

Heard in the cinema when a picture of a chimpanzee was flashed on the screen: "Oh, look at the bamboo!"

"That ain't a bamboo; it's a boom-crang."

If the "Wets" made as exaggerated statements as the "Drys" in discussing the liquor traffic, they would be called by an impolite name. A letter recently appearing in the Lethbridge Herald from a "Dry" advocate was such a mis-statement of fact that it makes one wonder where the righteousness is of these self-appointed Puritans who try to accomplish by legislation what they cannot accomplish by education. To successfully govern, there must be obtained the consent of the governed. Public opinion is certainly not ripe for another era of so-called Prohibition, with hickling, bootlegging and contempt for the law that follows in its train. A sincere Temperance advocate is worthy of respect for his consistency. It is not so with many Prohibition fanatics and extremists. —The Coleman Journal.

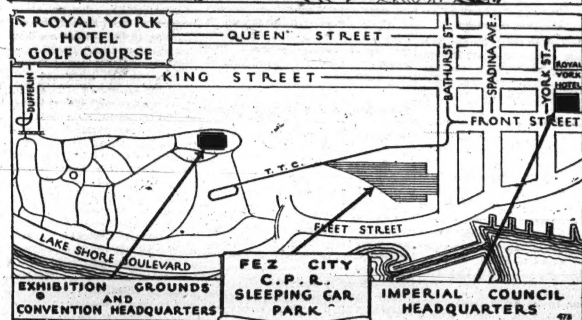

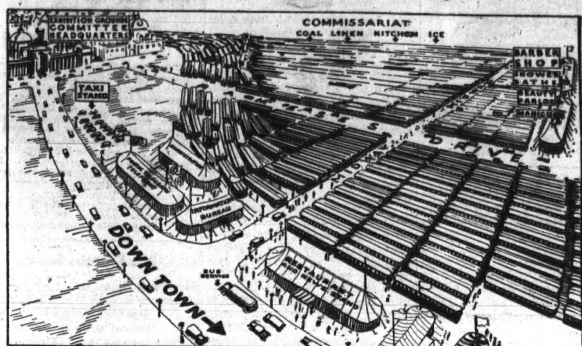

Mrs. H. McLeod entertained at bridge in honor of Mrs. T. Baines, of Drumheller. The guests were: Mrs. A. McQueen, Mrs. A. C. Foss, Mrs. J. McIntyre, Mrs. T. Malin, Mrs. E. Conner, Mrs. R. Tweed, Mrs. J. Hallett, Mrs. V. Sartoris, Mrs. H. Short, Mrs. G. Short and Mrs. W. Auerbach. A very dainty luncheon was served by the hostess and an enjoyable evening spent.—Mercoal Note in Edson-Jasper Signal.

The father and son service, which was planned for Sunday night next at the United church, has unavoidably had to be postponed for a week owing to delay in getting service sheets. It was hoped to hold this service the Sunday night following the father and son and mother and daughter banquet being held in the Moose hall tomorrow night.

Guest (angry at being kept waiting at station): "So you couldn't find me, eh? Didn't your mother describe me?"

Chauffeur: "Yes, sir, but there were several bald-headed old duffers."

Canadian Pacific Builds City

Ready and fully equipped to house a population of 8,000, "Fex City" is now being built by the Canadian Pacific Railway for the accommodation of the army of Shriners who will make Toronto their Mecca next June. Mainly, the city will be composed of sleeping cars, three hundred of which will be pressed into service while marquee will take the place of administration and service buildings. It will closely adjoin the exhibition grounds where the Shriners will hold their convention. Fex City will be fully equipped with a miniature hospital, restaurant, barber shop, shoe shine and even beauty parlors, news stands, cigar stands and candy counters. It will be cut in half by "The Midway" from which 1st, 2nd, 3rd, etc., streets will radiate, and "Rameses Drive" will handle all the motor traffic. Canadian Pacific and City police will co-operate in the protection of this new city. The cars will be arranged in the order that they will pull out for home at the end of the convention. The city will be brilliantly illuminated by electric light.

A patch of fully ripe strawberries in a local garden were destroyed a few days ago by a pair of horses, span Canada from coast to coast. Un- Ruffor has it that the bill for dam- in the rap north of Lake Superior aged is to be sent to the T-Bone in the Rainy River district are com- Ranch. It is said that strawberries pleted, it will still be necessary for as a diet will produce speed, so watch the trans-Canada motorist to journey south of the border.

A man's death, was wrongly announced in the papers. The next morning his friend was surprised to hear his voice on the telephone. "Did you see the announcement of my death?" asked the voice. "Yes," returned the friend, nervously, "where are you speaking from?"

Beer Parlors supply in a legitimate way, the demand for a mild alcoholic beverage.

An Ailing CHILL

Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation, to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

replied the young man impulsively. "I'll sleep in the attic, if only you'll take me in."

"Well," chuckled Grandma, "the attic's clean, anyway. I told you should clean everything. You take him up attic, dearie, and show him how pretty it is from the south window. There isn't a view in all Wickfield. But I don't think, young man, that the room over the kitchen is good enough for a guest. However, you can take your choice; and as Grandma says, it's easy to heat come winter."

As the young people left the room, the old doctor drew his chair closer to Grandma's.

"Well?" he questioned. "How does the boy strike you, Polly?"

"Dear me," sighed Grandma, a pleased light brightening her eyes, "I don't believe anybody's called me Polly in twenty years. As for that boy, Edward, I like him. He's got manners—not that manners are everything, but they cover a multitude of sins. And he looks you straight in the eye. If he has been shifty I'd never have consented to take him in. But almost the best thing about him is his legs. He walks like a soldier."

"Yes," laughed the doctor, "his legs seem to be all right; though I wish he were ten pounds heavier."

"We'll have to fat him up," commented Grandma. "His being here will make more work for Charman, but she says she can stand it. Say, Edward" (lowering her voice), "have you seen that high-diver that Jim Bennett took to the church sociable?"

The doctor laughed again; but his reply was interrupted by the opening door, and a small boy entered hurriedly.

"It's Jamie Othman," said Grandma. "You tell your mother that her yarn hasn't come yet; or were you wanting something else?"

"I want the doctor," panted the little boy. "The baby's got an awful stomach ache and Mummy says the automobile and sent me running. She said to tell you the baby's black in the face already, and for you to hurry."

"Like as not Baby Othman's been feeding it milk pie," commented Grandma, as the doctor hurried away. "It's a wonder she's raised any of her children. I suppose Edward will come back for that young man soon as he's turned the baby upside down and given Mummy a good talking to. I wonder which room the boy will take. It doesn't seem polite, somehow, to put him in the ell."

The "boy" was standing in the ell at that very moment, exclaiming at the beauty of a big four-posted bed. "Yes, it's wonderful," said Charman, touching the carved posts lovingly. "My great-grandfather slept on it. Later it was put in the guest room, and when black walnut came into fashion it was banished to the servants' quarters."

"Delightful quarters for the humble," smiled the young man. "I think I'll choose this room if it's as convenient for you."

"It will be more convenient. It's smaller to care for, and easier to sweep because of the hardwood floor. That Turkish carpet in the east room is gorgeous, but it's a sight of work to clean."

"Look here!" said the doctor suddenly. "I won't have you cleaning for me. I'll have time enough at my own disposal, to take care of my own domain. I'm a dandy sweeper, and can make a bed as expertly as a trained nurse. Just try me!"

Charman laughed.

"What would Grandma say? She thinks it's frightful to even offer you this room where she used to keep her hired girl. But I think it's a lovely room with its quaint dormers. Just see the view from this window. Isn't the river adorable from here? When I was a little girl I used to pretend it was a silver ribbon, put there by the fairies. I remember confiding my fancy Jimmy Bennett."

He was a little girl, too, when he was a young man.

Yes, the blue ghingham certainly "set pretty on her." This was the prospective boarder's thought as he arose, frowning his eyes on the vision in the doorway. The old doctor was feasting his eyes, as well, and Grandma Davis might have said "to do the same. For Charman made an astonishingly pretty picture, her cheeks flushed from hurrying, her blue eyes shining, a bit of not unnatural embarrassment making her pause a moment before coming forward."

"Charman," said the doctor, putting a fatherly arm across her shoulders to draw her nearer, "this is the boy who's promised to help me out if I will and him a place to live. I knew his father and his grandfather before him, and will vouch for the fact that he won't run off with the Davis candlesticks!"

Charman laughed as she stretched out a friendly hand which the young doctor took, and forgot to return till the girl drew it away. She said, a smile bringing out the dimples of which her mother had been so proud: "He might not think them worth the bother! They're not silver, Doctor Carter. Would you like to go up now and see the rooms? The east room is larger; but the one in the ell looks toward the river and is very cozy."

"I really needn't look at anything,"

laughed. I didn't forgive him for years and years!"

"No wonder!" responded John Carter with instant understanding. "Who is he? I'd like to smash his face for you!"

"You needn't bother," laughed Charman. "In fact, I wouldn't have hurt him for worlds. Jim is the rising young man of our community, as you will soon learn; and at present is setting the town agog by running after a green hat."

(To Be Continued.)

Add To Reputation

ASTOUNDING DISCOVERY HAS BEEN MADE BY CANADIAN ASTRONOMER

Dr. J. S. Plaskett, director of the Astrophysical Observatory, near Victoria, one of the world's most eminent astronomers, has added to the reputation of his own country, as well as to his own fame, by an astounding discovery concerning the movement of the sun, the sun and all the heavenly bodies visible to mankind. For this achievement the Royal Astronomical Society has awarded him its coveted gold medal, which never before has come to Canada.

Dr. Plaskett's newest discovery has been translated into unscientific language to mean that every star within the vision of the most powerful telescope and every other body for billions of miles beyond them, is rotating about a centre inconceivably distant from this earth.

The motions of the speak of matter known as our world thus are discovered to be far more complicated than has usually been supposed, although the theory now proven by Dr. Plaskett has been suggested as possible before. First, it is explained, the world on its own axis in a motion which gives us night and day. This motion is at the rate of 28,000 miles in twenty-four hours. The world goes around the sun once a year, providing the change in seasons. As our being conducted at the rate of 18 1/2 miles a second. Thirdly, the earth moves with the sun in another circle, this being independent apparently of the great universal movement which Dr. Plaskett has been investigating. Fourthly, as he explains the earth, the sun the moon and every tiny point of light visible to astronomers is travelling in a circle of almost unimaginable diameter. Its centre appears to be in the direction of the constellation Sagittarius, and is so far distant that light from there would take 47,000 years to reach the earth.

Travelling at inconceivable speed through space, all the heavenly bodies within man's ken are going over distances which it is difficult for the human mind to comprehend. Dr. Plaskett estimates that it requires 300,000 years for the visible universe to complete its great journey around its distant centre. The movement is at the rate of about 300 kilometers a second, or some 200 miles. This is more than 2000 times as fast as airplanes travelled in the Schneider Cup races recently when they broke all records for human travel.

Back in 1700, the foundations of industrial medicine were laid when a doctor wrote a book of 43 chapters on "Diseases of Artificers and Tradesmen."

The Greatest Mystery According to a western newspaper, the sweet mystery of life is love, but according to a widely held idea the great mystery of life is how so many people manage to live up to a Rolls-Royce standard on a slender income—Boston Transcript.

Constantinople Is Dead Even Name Has Been Abolished By Turkish President

Constantinople, the magnificent city of the Byzantine Empire, and Turkish Sultan, has been condemned to death by Kemal Pasha. Not only are the streets no longer repaired and mosques and palaces are slowly crumbling away, but a decree by the President even abolishes the name Constantinople, this being considered un-Turkish. Henceforth the Ottoman name Stambul takes precedence.

The example of the Bolsheviks of abandoning Petrograd, the former capital of Russia, to its fate and concentrating upon Moscow, is followed by Kemal, who has just tutored a big building program in Angora, where new parks and avenues are being laid out and where a certain amount of night life is developing, following the opening of several cabarets and night clubs.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Just as we were converted by the open-window campaign our next-door neighbor bought a radio.

Russia Erecting New Mausoleum For Lenin

Elaborate Ceremonies Will Mark Dedication In October

Behind a great wooden fence, in front of Moscow's famous Kremlin, entirely screened from public view, hundreds of Soviet workmen are hammering down the great wooden tomb in which Vladimir Ilich Lenin, "Father of Bolshevism," has slept during the last six years.

On this site is soon to rise a finer and more enduring mausoleum of granite and malachite to house the frail figure of the great revolutionary leader. While these operations are in progress, the embalmed remains of Lenin have been transferred to a special mortuary chamber in the Kremlin, where the coffin is guarded day and night by armed red soldiers.

On the ceiling, under which Lenin will repose in a large, hermetically sealed glass case, will be an armorial ensign of the Soviet Union. Lenin will be garbed in a simple khaki suit of semi-military cut; as at present, and the full length of his body, bearing the order of the "Red Banner" will be exposed to view.

Construction of the new mausoleum is progressing rapidly. It will be completed by October, 1930, when the thirtieth anniversary of the October, 1917, revolution will be celebrated. The most elaborate ceremonies will mark the dedication.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep them confined to the house, whose rooms may be over-crowded or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold or even gripes him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Back in 1700, the foundations of industrial medicine were laid when a doctor wrote a book of 43 chapters on "Diseases of Artificers and Tradesmen."

WRIGLEY'S

WRIGLEY'S is good company on any trip. It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

So SKINNY Ashamed in Bathing Suit Gained 15lbs

Small text describing a person's experience with weight gain and the use of a product.

Little Helps For This Week

"Let your speech be always with grace, seasoned with salt, that ye may know how ye ought to answer every man."—Colossians iv. 6.

Govern the lips. As they were palace doors, the king would not open them. Tranquil and fair and courteous be all words which from that presence win.

Wear your velvet within; show yourselves amiable to those, above all, who live with you.—Joseph Joubert.

He who governs his tongue is perfectly able to control all his passions.—William Ellery Channing.

Such a Skeptic Age

Such an age of skepticism is this, that although a prophet tells us the world is coming to an end in September, 1899, there are cool, dispassionate characters who go ahead and lease property for 99, or even 999 years.

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

Medicine Had Going Forward

The City of Medicine Had showed marked progress in industry during 1929, which is reflected somewhat in the figures of building permits; these being more than twice as large as those of the previous year, at \$306,600 compared with \$116,576. Additions to the Maple Leaf Milling Company's plant and to that of the Medicine Hat Greenhouses Ltd., were noteworthy.

Needless Suffering

The next time a headache makes you stay at home—

Or some other ache or pain prevents your keeping an engagement—

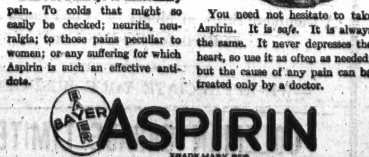

Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.

These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.

Don't be a martyr to unnecessary pain. To colds that might so easily be checked; neuritis, neuralgia; to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed; but the cause of any pain can be treated only by a doctor.

The Bellevue Juniors were defeated by the Canadians at Calgary last night.

The big local bonspiel is progressing at the local rink, with rinks from Coleman and Blairmore competing.

EYES EXAMINED—At Blairmore Pharmacy on Saturday, March 1st. E. J. ANDERSON, B.Sc., in attendance. —Feb 20-27

Mrs. Carl Smith, of Beaver Mines, has been called away to her former home, owing to the serious illness of her mother.

Mrs. O. M. Olson left this morning for Okotoks, where she will join her husband, now employed at Turner Valley.

Sister Superior Margaret and eight young pupils perished when an Indian school was destroyed by fire at the Pies, Manitoba, on Tuesday.

Marbles in Blairmore, ducks at Frank and Burmis, and meadow larks at Cowley, are a pretty fair indication that spring is with us.

Mr. and Mrs. Alderice Jette, of Pincher Creek, are receiving congratulations on the birth of a son on Wednesday, February 19th.

The Moral Reform League should take action to curtail the game of cribbage, which affords opportunities for dishonesty equal to golf.

A serious fire occurred at Natal on Saturday morning last, destroying four stores and a residence, the loss being estimated at about \$50,000.

Clara Bow will be here on Monday, Tuesday and Wednesday at the Orpheum in her latest picture, "The Saturday Night Kid." Don't miss it.

TEA AND SALE OF HOME COOKING—A tea and sale of home cooking, etc., will be held in the Lodge Hall on the afternoon of Saturday, March 15th, under the auspices of Crowview Rebekah Lodge. [F27-3]

A grand re-opening dance will be held in the Lundbreck hall tomorrow night. An addition to the hall, affording a splendid stage and orchestra accommodation has just been completed, making the hall larger and very much up-to-date.

The inquest into the cause of death of Frank Cizek is proceeding at the court house. The jury impanelled is as follows: W. Goddard (foreman), I. Whyte, L. Dunkley, I. Comfort, P. McPherson and J. A. Kerr, with Dr. J. Olivier as coroner.

Staff. Wilson, of Fernie, has received word that his brother-in-law, Joseph Pearson, was killed in an airplane crash at Santa Maria, California, where he was chief instructor and expert pilot at the Richman's school of flying.

The task of opening the road west from Coleman to the B.C. boundary is progressing favorably and it is expected that by Saturday hockey fans from points between Cranbrook and emerged from the C.P.R. station at here by auto for the big game.

The Dominion Rebekah degree team, of Lethbridge, were declared winners of the Naomi challenge cup in competition at the annual provincial assembly session at Calgary last week. They competed against teams from Calgary and Edmonton.

The Blairmore Bears, champions of the Crows' Nest Senior League, left by the local today for Calgary, where at 8:30 tonight they clash with the Calgary Brooks in the first game of the Alberta semi-final in the Allan cup playdowns. A number of fans accompanied the boys. The return game will take place at the Blairmore arena on Saturday night. The roads being open to Fernie and Cranbrook, a large number of people are expected from western points by auto.

A \$70,000 addition is to be made to the Marquis hotel at Lethbridge.

Rumor has it that Canera has engaged with the C.P.R. as a pile driver.

Some little girls are punished for making faces—but not when they grow up.

Marriage is like eating mushrooms—you never know if you are safe until it is too late.

As elsewhere, daily press correspondents at Drumheller are causing trouble.

A man is as old as he feels fit—and a woman is as old as she thinks fit.

Soviet Russia has abolished Sunday as a day of rest. Golf and the auto did that in this country long ago.

Joe Fitzpatrick has returned to Bellevue after a several month's sojourn in the Drumheller valley.

Society women are paying \$10 an hour for bridge lessons. Men have paid much more for lessons in poker.

"Sir," said the maid, quite haughtily, "either take your arm from around my waist or keep it still. I'm no ukelele."

Some men are never satisfied. Many a man who wants the earth kicks like a steer if he gets a little dust in his eyes.

Mrs. A. Morency returned Sunday morning from Calgary, where she had been as delegate to the annual Rebekah Assembly of Alberta.

When, a sour-looking individual and Blairmore will be able to journey Calgary a few days ago, one of the taxi drivers shouted: "Shaver's Funeral Parlors!"

A Chicago judge was little affected by the appeal of a lawyer for leniency toward his gunman client. The heartless judge imposed the maximum penalty of one dollar or ten days free grub.

Radium is worth about \$1,750,000 an ounce. After conducting the affairs of The Enterprise for 17,000 years and three and a half months, we hope to purchase one twenty-fifth of an ounce.

"Song of Love," the talking-singing drama that is sweeping the country. It is a screen triumph with Belle Baker, the queen of song, at her best. She will bring a lump into the throat and tears to the eyes. See and hear her at the Orpheum tonight, Friday and Saturday.

John J. Cameron, residing with his aunt, Mrs. Hugh Cameron at Burmis Beaver Dam Ranch, has invested in registered Aberdeen black Polled Angus cattle from the Buchanan ranch near Pincher Creek. John's ambition is to gradually wear into a select bunch and win some prizes at shows. He says: If you are to start in the cattle business, start with something good and gradually increase your herd as means will allow.

The wonder repertoire of over 900 songs which The Welsh Imperial Singers have available for their programs comprises a golden heritage from the great age of Elizabethan music. It was customary in those days for a company of friends who were dining together to gather around the table at the close of the meal and join in singing for the balance of the evening. The pleasure and edification thus derived may be judged by the joy manifested by the Welsh Imperial Singers in rendering their programs.

People are of Two Sorts

—Peace-makers, trouble-makers

So are foods. Some irritate and inflame the digestive tract. Others bring peace, harmony, contentment.

MOTHER'S BREAD

is the great tranquillizer. It soothes and nourishes. Why? Because it is nature's complete ration, representing all food, and no waste. Build your meals upon it.
